## Experience

**Design Manager – iOttie, New York, NY**

*Jan 2019 - Sept 2023*

*Managed the Industrial design team projects through **all phases** of the product design lifecycle.*

- Managed concept design, product prototyping, and reviewed the engineering and manufacturing processes of **over 20 consumer electronics products** that released to market and major USA retail stores.
- Managed a team of **7 industrial designers** over the span of my 4 year tenure.
- Designed and developed **9** consumer electronics products that won **Red Dot Design** and **CES innovation awards**.
- Created products in **collaboration** with **Google, Amazon, and Apple** teams that incorporated their technology and protocols into our designs.
- **Lead communications across multiple teams** creating presentations for factory engineers, buyers, corporate partners, and internal teams of sales and marketing.
- Ensured concept **design deadlines, design for manufacturing, and reliability testing** were performed to company and industry standards.
- Developed and designed products that integrated a **variety of technologies** including **wireless charging, smartphone thermals, bluetooth, wif, microphone audio, and smartphone and tablet sensors.**

**Senior Designer – iOttie, New York, NY**

*Jan 2016 - Jan 2019*

- Worked directly with product designers, project managers, and mechanical engineers to create **over 15 consumer electronics products** that released to market and major USA retail stores.
- Used **concept sketching, 3d visualization, and presentations** to communicate concept designs through the design and manufacturing process.
- Created **technical specification documents** to communicate product designs to **factory engineers**.
- Designed and developed **5 consumer electronics products** that won **CES innovation awards**.

## Professional Skills

Product Design  
Concept Development  
Design Engineering  
Solidworks  
Keyshot  
Adobe Creative Suite  
Prototyping  
Sketching  
3D Visualization  
Package Design

## Awards

Red Dot Design Award  
*iOttie - 2023*

CES Innovation Award  
*iOttie - 2023*

2 Red Dot Design Awards  
*iOttie - 2022*

3 Red Dot Design Awards  
*iOttie - 2021*

Red Dot Design Award  
*iOttie - 2020*

CES Award Recognition  
*iOttie - 2019*

CES Innovation Award  
*iOttie - 2018*

2 CES Innovation Awards  
*iOttie - 2017*

CES Innovation Award  
*iOttie - 2016*

CES Innovation Award  
*iOttie - 2015*

## Experience - Continued

Designer – iOttie, New York, NY

*Oct 2014 - Jan 2016*

- Worked with a team of designers and factory engineers to collaborate and create product designs for market and **released in major USA retailers.**
- Created **concept sketches**, and **product renders** to present designs to a variety of teams.
- **Won a CES innovation award** in consumer electronics.
- Communicated finalized designs through **3D CAD** with **factory engineers** to go through production.

Designer – Fabrique Studio, Branford CT

*May 2013- Sept 2014*

- Responsible for the **design and engineering** of consumer electronics accessory products for **hp and Dell's foldable tablet lines.**
- Communicated product designs to global marketing directors and factory engineers through technical specification documents and 3D CAD.
- **Traveled to factories in China** along with project managers from corporate partners to ensure product timelines were kept and engineering issues were solved.

Designer – Cool Gear, Plymouth MA

*May 2011- Feb 2013*

- Designed and **developed over 10 bottles** that went to market and major USA retailers including **WalMart, Target, Starbucks, and Dunkin Donuts.**
- Communicated product designs within a design team to factory engineers
- Reviewed **design feasibility** with engineers in regards to the **molding of plastics, rubber, and glass.**
- Collaborated directly with **corporate buyers** and marketing to align product designs with proven market trends.

## Education

Jefferson University  
Bachelor of Science  
Industrial Design Major  
Philadelphia, PA  
2006 - 2010
